CHAPTER	PAGE
I. INTRODUCTION AND HISTORICAL SURVEY - - -	1
Historical: survey of chief experiments previously conducted; general statement on position of films in culture and education; work of Commission on Educational and Cultural Films; research by and information from the International Institute of Educational Cinematography at Rome; work in foreign countries.	
II. ORIGIN AND ORGANISATION OF EXPERIMENT - -	9
Origin of experiment: Exhibitions of Mechanical Aids to Learning; organisation and persons collaborating; description of experiment; apparatus used.	
III. SCOPE AND CONTENT OF THE EXPERIMENT - -	15
Selection of films: synopses of films; areas and types of schools concerned in experiment; numbers and ages of children; teachers involved; instructions to teachers; kinds of enquiry undertaken; methods of testing results.	
IV. EXAMINATION OF FILMS USED - - - - -	27
Detailed examination and analysis of each film used: teachers' opinions on films and how to improve them for school use; examination of scope, content and educational value of each film used.	
V. SOME PROBLEMS EXAMINED - - - - -	41
Some problems examined: relative value of sound and silent films; value of preparatory and recapitulatory lessons; durability of impressions; results of deferred tests.	
VI. THE FILM AND BACKWARD CHILDREN - - - -	51
Films and backward children: classification adopted; importance of the problem of retardation; variations in performances of normal and retarded groups; observation powers of retarded children; general conclusions.	

VII. OUR MAIN CONCLUSIONS	- - - - -	62
General conclusions on place of sound films in education : use and abuse of mechanical aids in schools ; value and function of films in process of education ; future developments in film education ; the vicious circle ; how it might be broken ; production of school films ; co-operation with producers ; need for central organisation and catalogue of films ; need for film libraries ; the problems of projectors and film distribution.		
VIII. SOUND FILMS IN EDUCATION	- - - - -	72
Structure of teaching films : subjects of the curriculum best suited for film teaching ; Geography ; Science ; History ; English ; Foreign Languages ; Mathematics ; Music ; Art ; Physical Education ; Domestic Economy ; films in vocational guidance ; films as a humanising agent in education.		
IX. SUMMARY OF PRINCIPAL CONCLUSIONS AND RECOMMENDATIONS	- - - - -	79
APPENDICES :	- - - - -	85
1. Pupils' Questionnaires.		
2. Teachers' Questionnaires.		
3. Statistical Tables.
